

Let your productivity flow

Perform at your peak with
a Fellowes Monitor Arm

Fellowes

Glide through your to-do list in comfort

When we're in a flow state, incredible things happen. We become totally immersed, able to fly through activities without being distracted. Time seems to pass unnoticed as we achieve more. Can you imagine if every day we could be in that flow state? A Fellowes Monitor Arm makes it possible, by helping you accomplish tasks faster, easier and in heightened ergonomic comfort. Allowing you to perform at your peak, however you wish to work.

In a 2021 survey*, 48% of participants said that relieving neck pain would make their workspace healthier for them. Using a Fellowes monitor arm means that you can set your screen to the exact height and angle to improve your health when working. This reduces the risk of neck pain and allows for more comfortable, productive working.

Fellowes 100-year wealth of research and product development in the office workspace has resulted in a monitor arm and accessories range designed to allow effortless adjustment for full workspace flexibility, with configurations and added features to suit all individual work styles.

*Survey data collected by Censuwide for Fellowes, 2021

FIRA Compliance

FIRA International are an independent Ergonomic Standards Accreditor.

This logo signifies that the relevant product complies with EU Health and Safety Legislation: BS EN ISO 9241 Ergonomic requirements for office work with visual display terminals (VDT's): Part 5: 1999, workstation layout and postural requirements.

All Fellowes monitor arms are FIRA accredited.

*Excludes wall mount options

Things to think about

1. Number of screens

2. Mounting option

3. Level of movement

4. Adjustability

5. VESA Compliance

Most monitors have a VESA hole pattern on the back of the screen. VESA stands for Video Electronic Standard Association and is the industry benchmark used by worldwide manufacturers of flat screen monitors.

Fellowes mounting solutions are all designed to fit these various VESA standards.

Platinum

Powerful flexibility

A wide choice of multi-screen modes with USB connectivity. Maximise productivity with the hard-working Platinum range.

Flexible movement

This gas spring arm makes it easy for the user to position the monitors in the right position for them.

Wide choice

Choose between 1, 2 or 3 monitors with dual stacking and side by side set ups, in a variety of colours to suit multiple user requirements.

Built-in connectivity and cable management

Save desk space with built in USB 3 connectivity to charge devices and intuitive cable management.
